Dataset 1: Random deviates from a circular uniform distribution.

Dataset 2: Random deviates from a von Mises distribution with $\mu = 0^\circ$ and $\kappa = 2$.

Dataset 3: Random deviates from a von Mises distribution with $\mu = 0^\circ$ and $\kappa = 5$.

All the datasets were generated by the free statistical environment R (version 2.12.1) with circular 4.0.1 package.
